- Provide senior technical support to the assigned safety projects
- Authorize to stop work should there be observable and direct contravention of Federal Regulation, Provincial OHS (Occupational Health & Safety) Regulations, area laws or any situation that may expose danger to workers and the public in general.
- Coach On-Site Supervisors on pro-active safety initiatives such as Behavior Based Safety, Near Miss reporting, Site/Company Orientations and contractor HSE Management follow-ups
- Interact with Area HSE Advisors and Local Operations Management regarding corrective actions, and follow-up injury case managements
- Provide Field HSE Advisors support for critical activities based on risk, including but not limited to Rig moves, multi-stage fracs, Multi-contractor operations on one location, drilling operations and lease construction
- Gather proactive leading key performance indicators from all field operations as indicated
- Respond to incident related call-outs and assist with Incident Investigation management and data collection of post incident
- Conduct on-going field verifications including but not limited to implementation of regulator/company commitments; ensure corrective actions identified in incident investigations have been implemented on each relevant sites
- Assist the safety department with document development Programs, Audits, Emergency Response Plans
- Assist in revising safety handbooks and manuals as needed
- Help promote a culture where health and safety is a top priority for all
- Other related duties that may be assigned from time to time

### Qualifications:

- Minimum of 5 years safety related experience, drilling or completion experience is required
- Canadian Registered Safety Professional (CRSP) considered an asset
- Strong computer experience with Microsoft Office and online programs
- Strong working knowledge of Occupational Health and Safety practices particularly related to the oil and gas industry
- Ability to work and communicate effectively with customers at any levels in the organization
- Excellent Analytical and Problem Solving Skills
- Able to prioritize and meet deadlines through proven organizational skills
- Independent team player

The ideal candidate will be based home based in the area of Sherwood Park, St. Albert, Edson, Alberta (with field assignments in the area).
