

Environmental OSE Manager

Job Description:

Pioneer is currently looking for an experienced and energetic Environmental OSE Manager to manage projects in Western Canadian operations. This person would preferably have experience with Oil Sands Exploration (OSE) operations and is skilled with dealing with regulators acquiring approvals and be a liaison between proponents and regulatory agencies.

Responsibilities & Duties:

- Conduct environmental assessments for associated disposition and projects
- Understand client projects and associated land and environmental requirements
- Follow through on mandate by regulatory agencies, i.e. environmental monitoring

Qualifications:

- Minimum 5 to 7 years of experience in environmental consulting industry.
- Experience with Oil Sands Exploration
- Degree or Diploma in Biology, Forestry, Reclamation and/or Engineering
- Strong communication and interpersonal skills.
- Previous management experience.
- Environmental experience in Western Canada within the Oil and Gas, Energy, Infrastructure, Real Estate and other industries.
- Experience on large scale remediation and risk management projects.
- Experience with Alberta Upstream Oil and Gas Tier I & II Guidelines (2009)

Location:

Currently our offices are located in Calgary, Edmonton, Grande Prairie, Lloydminster, Medicine Hat, Fort St. John and Regina. The ideal candidate would be based out of the Edmonton office.

Interested candidates are invited to forward a resume, in confidence to:

tkanuka@pioneer-group.ca

We would like to thank all applicants for their interest in this position however only those selected for interviews will be contacted.
