

## **Environmental Project Manager**

### **Job Description:**

Pioneer is currently looking for an experienced and energetic environmental professional to conduct remediation projects in our Northern British Columbia Operations. This person would be responsible for the development of new clients and explore with the General Manager Environmental Services areas in which Pioneer could expect natural and reasonable growth from its present and existing environmental service base.

### **Responsibilities & Duties:**

- Conduct fieldwork activities and reporting for lease and pipeline development
- Conduct fieldwork activities and reporting with the purpose of acquiring acknowledgement of reclamation
- Conducting Environmental Site Assessments, Phase I, II, III Projects and Environmental Impact Assessments
- Develop and build relations with our existing client base
- Explore areas in which Pioneer could expect natural and reasonable growth
- Other environmental related projects for clients as directed

### **Qualifications:**

- Minimum 5 to 10 years of experience in environmental consulting industry.
- Strong communication and interpersonal skills.
- Environmental experience within the Oil and Gas, Energy, Infrastructure and other industries.
- Strong regulatory experience and relationships with government organizations.

### **Location:**

Currently our offices are located in Calgary, Edmonton, Grande Prairie, Lloydminster, Medicine Hat, Fort St. John, Sylvan Lake and Regina. The ideal candidate would be based out of the Fort St. John office.

Interested candidates are invited to forward a resume, in confidence to:
