

Environmental Technician

Job Description:

Pioneer is currently looking for an experienced and energetic Environmental Technician to conduct Biophysical assessments in Western Canadian operations. This person would be responsible for the development of new clients and explore with the Manger Environmental Services areas in which Pioneer could expect natural and reasonable growth from its present and existing environmental service base.

Responsibilities & Duties:

- Develop and build relations with our existing client base
- Conduct fieldwork activities and reporting for lease and pipeline development
- Conduct fieldwork activities and reporting with the purpose of acquiring a reclamation certificate
- Conducting Environmental Field Reports, Caribou Protection Plans, Environmental Impact Assessments
- Other environmental related projects for clients as directed

Qualifications:

- 2- 5 years of experience in environmental consulting industry.
- Degree/Diploma in related field
- Strong communication and interpersonal skills.
- Environmental experience in Western Canada within the Oil and Gas, Energy, Infrastructure, Real Estate and other industries.

Location:

Currently our offices are located in Calgary, Edmonton, Grande Prairie, Lloydminster, Medicine Hat, Fort St. John and Regina. The ideal candidate would be based out of the Edmonton office.

Interested candidates are invited to forward a resume, in confidence to:

tkanuka@pioneer-group.ca

We would like to thank all applicants for their interest in this position however only those selected for interviews will be contacted.
